

PRAKASH IYYANARAPPAN

Senior Technology Engineer - DevOps

PROFESSIONAL SUMMARY

Highly skilled Associate Architect with around 13+ years expertise in DevOps, specializing in DevOps, Cloud Infrastructure, CI/CD pipelines, and automation. Proficient in optimizing system performance, enabling seamless deployments, and driving operational efficiency across diverse environments. Strong focus on scalability, reliability, and continuous improvement. Holder of **Kubernetes Administrator(CKA)**, **Terraform Associate**, and **AWS Solutions Architect** certifications.

WORK HISTORY

Senior Technology Engineer, 10/2025 - Current
Emirates NBD, Chennai, India

- Designed, implemented, and maintained **CI/CD pipelines** using **Jenkins** and **Groovy**, enabling automated build, test, security scan, and deployment across multiple environments.
- Managed containerized applications on **OpenShift**, including deployment strategies, scaling, resource optimization, and troubleshooting in production and non-production environments.
- Implemented **API management** and governance using **3scale**, ensuring secure, scalable, and compliant API exposure.
- Managed **artifact repositories** using **JFrog Artifactory**, enforcing versioning, promotion policies, and dependency management.
- Integrated **secrets management** using **HashiCorp Vault**, ensuring secure storage and dynamic access of credentials, tokens, and certificates.
- Embedded **DevSecOps practices** by integrating **Checkmarx** and **Semgrep** into CI/CD pipelines to identify and remediate security vulnerabilities early in the SDLC.
- Automated infrastructure provisioning and configuration using **Terraform** (IaC) and **Ansible**, supporting cloud and on-prem environments.
- Led and supported **application and infrastructure migrations**, ensuring minimal downtime and adherence to banking compliance standards.
- Implemented and maintained **monitoring and observability** using **Prometheus** and **Grafana**, enabling proactive issue detection and performance optimization.

Chennai, Tamil Nadu 600070

SKILLS

- Cloud: AWS/GCP - Hybrid Cloud
- Version Control: GitHub, Bitbucket, Azure repository, Codecommit
- CI/CD: Code Pipelines, Jenkins, Harness, GitHub Actions
- IaC: Terraform, Cloud Formation
- Configuration Management: Ansible
- Containerization and Orchestration: Docker, Docker-Compose, Kubernetes, Openshift, EKS, GKE, Hemi
- Monitoring Tools: ELK Stack, Grafana, Prometheus, GCP Cloud Monitoring, AWS Cloudwatch
- Artifacts: jFrog, Dockerhub, ECR
- Scripting & configuration languages : Shell/Bash, PowerShell, Groovy, YAML
- DevSecOps (Vault, Checkmarx, Semgrep, Secure SDLC)
- Release & Deployment Strategies

- Collaborated closely with development, security, QA, and operations teams to improve release reliability and deployment frequency.
- Ensured high availability, disaster recovery readiness, and compliance with **banking security and regulatory standards**.

Associate Architect - DevOps, 09/2022 - 10/2025

Ernst & Young, Chennai

- As a seasoned DevOps professional, I have been instrumental in streamlining and optimizing CI/CD pipelines for major customers, ensuring secure, scalable, and efficient software delivery
- Pipeline Management: Managed CI/CD using CodePipeline to enhance build reliability and efficiency across various projects.
- Kubernetes Orchestration: Designed helm Charts for deploying Amazon EKS and other infrastructure components, while also overseeing Kubernetes deployment strategies for scalability and reliability.
- Utilize IaC tools like Terraform and CloudFormation to automate provisioning and manage cloud resources.
- Set up and maintain monitoring tools like ELK Stack, Grafana, Prometheus, and AWS CloudWatch. Monitor system performance, troubleshoot issues, and ensure uptime.
- GitOps with ArgoCD: Implemented ArgoCD to enable continuous delivery of Kubernetes applications in a GitOps-driven environment

Sr. Software Engineer II, 04/2021 - 09/2022

Rakuten, Bangalore

- Working as a Lead DevOps Engineer with high-quality projects in the latest DevOps tools and technologies for the Rakuten Credit Card Financial services
- Infrastructure Management with Ansible: Managed build VMs using Ansible for streamlined configuration and deployment processes
- CI/CD Pipeline Management: Developed and managed secure Jenkins CI/CD pipeline scripts for diverse clients, enhancing build efficiency and security
- Kubernetes & Containerization: Developed and deployed shared service containers on Kubernetes, ensuring scalable and reliable application delivery.

Lead Engineer, 09/2016 - 04/2021

Guidanz Inc, Chennai

- Experience with Build and Release Management Process and also using Kubernetes and Docker on production Environment over GCP
- Designed and implemented a continuous build-test-deployment (CI/CD) system with multiple component pipelines using Jenkins to support weekly releases and out-of-cycle releases based on business needs.
- Experience with container-based deployments using Docker, working with Docker images, Docker Hub, and Docker-registries and Kubernetes

- Used Jenkins pipelines to drive all micro services builds out to the Container Registry and then deployed to Kubernetes, Created Pods and managed using GKE Clusters on GCP.
- Test Environment set-up in Debian, Ubuntu, Ngnix, CentOS, Redhat, and all other Linux distro and Involving Environmental set-up in AWS (Creating, spinning up, and maintaining instances in security groups), Xcelhost (Hyper-V), Elasticsearch, Kibana, Grafana, and Prometheus.
- Used Jenkins pipelines to drive all services builds out to the Kubernetes container registry and then deployed to Kubernetes, Created Pods, and managed using Kubernetes.

Sr. Web Analyst, 12/2013 - 03/2016

Scope E-Knowledge Center, Chennai

- Logging the defects on JIRA, assigning the defects to the concerned developer and managed all the bugs and changes into a production environment using the Jira tracking tool
- Set up Build Infrastructure with Jenkins and participate in plans and creating test jobs in continuous integration tools (Jenkins) based on the project release
- Involved in Functionality Testing, Performance Testing, System Testing, Acceptance Testing
- Involved in verifying the published data in Staging and production (QC)

EDUCATION

Bachelor of Technology, Information Technology, 04/2012

Thangavelu Engineering College - Chennai, India

CERTIFICATIONS

Certified Kubernetes Administrator

Terraform Associate

AWS Certified Solution Architect - Associate
